

Process Streamlining Worksheet

Instructions: Use this worksheet to copy the problem solutions shared by ChatGPT based on your prompts.

Problems to Solve

1. Develop a list of unique and innovative design ideas that may appeal to the 20- to 35-year-old customer segment.
2. Conduct marketing research to better understand current trends and customer preferences in the market.
3. Conduct a comprehensive competitive analysis. Identify the top 3 competitors in the market, their product mix, and their share of the market.
4. Develop a marketing plan that provides creative product descriptions and a compelling value proposition that allows Wick and Wonder to stand out.
5. Develop a beta plan that streamlines testing and incorporates greater levels of customer feedback.

Solutions to Problems using Generative AI Chat GPT
Problem 1
Problem 1 – Innovative Designs Solution: • Geometric modern shapes • Crystal-embedded wellness candles • Terrarium-style candles • Glow-in-the-dark or colour-changing candles • Candles with hidden messages • Aromatherapy blends with botanicals • Gradient / marble patterns • Personalized label candles • Celestial / moon-themed candles • Eco-friendly repurposed materials
Problem 2
Problem 2 – Market Trends & Preferences Solution: • Consumers prefer natural, eco-friendly soy/beeswax • High demand for wellness & aromatherapy • Visual design matters as much as scent • Customization and personalization are strong drivers • Millennials (20–35) want aesthetic, unique, experiential candles • Online sales and subscription boxes increasing • They prefer socially conscious, sustainable brands
Problem 3
Problem 3 – Competitive Analysis Solution: Top Competitors: 1. Yankee Candle – broad scent portfolio; strong brand; large market share 2. Bath & Body Works – three-wick scented candles; strong in U.S.; promotional dominance 3. Diptyque – luxury premium candles; niche but strong share in upscale segment

Problem 4

Problem 4 – Marketing Plan + Value Proposition

Value Proposition:

"Wick & Wonder delivers handcrafted candles that blend innovative design, premium natural ingredients, and immersive sensory experiences. Each candle brings creativity, warmth, and wellness into everyday life."

Marketing Plan (Condensed):

- Strengthen storytelling about craftsmanship and sustainability
- Release seasonal & limited-edition collections
- Collaborate with artists and influencers
- Offer candle-making workshops and virtual scent tools
- Build a loyalty program
- Expand distribution via boutiques, online marketplaces, and events
- Run visually compelling multi-channel campaigns

Problem 5

Problem 5 – Beta Testing Plan

Solution:

- Recruit testers aged 20–35 from customer lists/social media
- Provide clear burn-testing instructions
- Use multiple feedback channels (surveys, forms, interviews)
- Collect both scent and performance metrics
- Iterate based on issues identified
- Keep testers informed and thank them
- Use insights to finalize product formulas, packaging, and marketing
