

Exercise 2: The Project Charter Template

Part I: Instructions

Project Charter Topic	Description
Team Composition	• List all team members • Provide a title and a brief description of their role
Team Purpose	• Describe the purpose of the team • Develop a brief and motivating team vision
Objectives	• List objectives the team must accomplish • Strive for actionable objectives
Key Performance Indicators (KPI)	• List Key Performance Indicators (KPI) the team will use to measure success
Sponsor	• Define the Product Sponsor • List Sponsor roles and responsibilities
Deadlines	• Provide a list of key milestones the team must meet
Resources	• List any resources required for the team to be successful • Identify initial funding required to Conceive and Plan
Meetings	• List times and places the team will meet • Include any other specific communication requirements

Part II: Blank Template

Project Charter Topic	Description
Team Composition	• Robert Winston – Product Manager (leads product vision, coordinates cross-functional efforts) Valerie Kumar – Product Sponsor (funding approval, strategic oversight) Sylvia Sanders – Marketing Lead (market analysis, positioning, and launch strategy) Hiroshi Tanaka – Lead Engineer (technical design and prototype development) Ram Chopra – Design Lead (product design, usability, and aesthetics) Maggie Jones – Product Owner (requirements prioritization, feature definition) Sarah Newton – Project Manager (timeline, risk, and resource management) Raul Hernandez – Operations Lead (manufacturing, distribution, and logistics coordination) •
Team Purpose	• To design, develop, and prepare a next-generation HEPA Air Purifier line that addresses key customer pain points—odor removal, noise reduction, ozone elimination, and extended filter life—while positioning PP LLC as an industry leader in smart and eco-friendly air purification.
Objectives	• • Develop and test three prototype models (Basic, Better, Ultimate) within six months. • Reduce ozone emissions by 100% and noise levels by 50%. • Extend filter lifespan by 50% while reducing replacement costs. • Complete product launch by June, aligning with seasonal demand.
Key Performance Indicators (KPI)	• • Achieve ROI $\geq 150\%$ and IRR $> 200\%$. • Increase market share by 10% and revenue by 25% in first year post-launch. • Maintain product return rate $\leq 5\%$. • Reach customer satisfaction score of $\geq 90\%$ within first six months of sales.

Sponsor	• Valerie Kumar – Product Sponsor. Responsible for funding allocation (\$30,000 for Conceive and Plan phases), reviewing and approving the Product Concept Document and Business Case, and providing executive-level support for milestone sign-offs.
Deadlines	• Concept Development: January • Prototype Design Completion: March • Testing & Beta Phase: May • Product Launch: June (ahead of summer demand)
Resources	• Initial funding: \$30,000 (Conceive & Plan phases) • Engineering and design software tools • Test lab access and 3D prototyping equipment • Marketing research data and customer survey reports
Meetings	• Weekly team meetings every Tuesday afternoon via hybrid setup (onsite and virtual). Status reports due bi-weekly to the Product Sponsor. Additional ad-hoc meetings as required during prototype testing and launch planning.
