

Exercise 3: Illustrate the Contents of a Market Requirements Document (MRD)**Part I: MRD Instructions**

Section	Title	Contents
1	Market Segment	- Targeted Market Segment: Define the customer segment you will target - Specific Buyers and Users: Identify specific buyers and users of your product
2	Market Problem	Define the Market Problem: Highlight the problems your product will solve for its customers
3	Market Requirements	- List specific functions and features that the customers require - List attributes your product will satisfy
4	Prioritization	Prioritize each listed requirement against the perceived market importance

Part II: Blank MRD Template

Section	Title	Contents
1	Market Segment	Targeted Market Segment: Adults aged 35+, dual-adult households, health-conscious families, and small office environments. Focus on mid- to high-income consumers who value clean air, safety, and low-maintenance solutions. Specific Buyers and Users: Homeowners, renters, small business owners, and medical offices seeking reliable and quiet purification systems.
2	Market Problem	Market Problem: Current HEPA purifiers fail to eliminate VOCs, odors, and viruses. They can emit ozone, require frequent filter changes, and are often noisy. Customers want an air purifier that is safe, quiet, low-maintenance, and effective against a broader range of air pollutants.
3	Market Requirements	- Market Requirements: - Eliminate harmful ozone emissions. - Capture VOCs, odors, and viruses in addition to particulates. - Reduce operating noise by 50%. - Include a long-lasting, affordable filter with a lifespan of at least 1.5 years. - Integrate smart monitoring (air quality tracking and maintenance alerts). - Offer compact, modern design suitable for home and office environments. - Support eco-friendly materials and energy-efficient operation.

4	Prioritization	• Requirements Prioritization: High Priority: VOC and Odor removal, ozone-free operation, quieter performance, extended filter life. Medium Priority: Smart monitoring features and air quality alerts. Low Priority: Compact design and optional air freshener add-ons.
