

Product
HEPA Dual Purifier (Basic Model)
HEPA+ Air Freshener Purifier (Better Model)
HEPA Ultimate Purifier (Premium Model)

Exercise 5: Product Roadmap for Perfect Purifiers LLC.

Q1–Q2 2025 (Short-Term Goals)	Q3–Q4
• Finalize prototype design focused on noise reduction (50%) and ozone elimination. • Conduct initial safety and efficiency testing. • Begin sourcing eco-friendly materials for filter housing.	• Launch Basic Model • Collect customer feedback on airflow efficiency • Begin production distribution.
• Develop prototype integrating odor-neutralizing filter and enhanced motor strength (50% coverage increase). • Conduct user testing for usability and effectiveness.	• Launch Better Model with 360° coverage and smart features • Begin marketing campaign targeting eco-conscious families
• Begin design of multi-layer filter combining HEPA, carbon, and anti-bacterial coating. • Integrate app connectivity for filter alerts and air quality tracking.	• Launch Ultimate Model with IoT integration • Add subscription-driven maintenance service • Conduct post-launch global rollout plan

2025 (Long-Term Goals)
odel to consumer market. er feedback and improve internal . on scaling for retail and online
Model in Q4 with expanded art air quality sensors. g campaigns targeting health- s and small offices.
e Model as flagship product. n filter replacement service and AI- ice alerts. unch performance review and nning.
